

MISSISS WHITMAN AND CONNER GIVE LAWN PARTY—

Misses Doris Whitman and Evelyn Conner were joint hostesses at a lawn party given at the home of Mrs. J. M. Whitman Monday evening. The lawn was decorated with shaded lights, and many outdoor games were entered into by the guests. At the conclusion of the festivities of the evening, punch and cake were served to several members of the younger social set. A good time was reported by all.

LITTLE FOLKS ENJOY SPEND-THE-DAY PARTY—

Little Miss Martha Francis Dowling entertained nine friends Thursday at a spend-the-day party, honoring her birthday. Various outdoor games were enjoyed during the day. At the noon hour the guests were served a delicious three course dinner. The birthday cake made a beautiful central decoration for the table. This was a delightful affair for the little hostess and her guests.

It is further ordered that the Clerks and Registers of the several courts enter this order on the minutes of the courts respectively, and have made and furnish each attorney practicing therein with a copy thereof. Done at Troy, Ala., Aug. 12, 1927. W. L. Parks, Judge.

By the use of winter legumes Alabama farmers are making their own nitrogen. These winter-growing plants get started in the winter and grow rapidly in the spring, during which time they gather nitrogen from the air very rapidly. In addition they produce large quantities of humus or organic matter. By growing one of these legumes on each acre, the farmer can make an experiment station say that farmers can produce all the nitrogen they need and not have to buy it from the market and buy it. It is much cheaper than buying nitrogen. I am getting orders from Coffee County farmers every day and would appreciate it very much if you will write me or write me a card telling me how much you want, as I will have to quit taking orders by September 10th, in order to get the seed here in time to plant them. GRADY RHODES, ELBA BOY, IN THE NAVY NOW, WRITES INTERESTING LETTER.

The editor of The Clipper last week received a very interesting letter from Grady Rhodes, former Elba boy, now in the Navy, on the U. S. S. Antares. We feel sure his many friends here will enjoy his letter, which follows:

Newport, R. I., Aug. 10, 1927. Dear Mom:

I have been thinking for some time that I would express my appreciation of The Elba Clipper. I am very glad that I subscribed to the dear old home town paper. On Wednesday of every week I am sure of getting some news from home.

FORD'S NEW CAR EXPECTED AT EARLY DATE, TO BE MUCH FASTER CAR.

Detroit, Mich., Aug. 10.—Ford's new automobile will be capable of a speed of 60 miles per hour, and with one exception will be quicker in acceleration, pickup, and getaway than any other type of automobile in its class.

Edsel Ford, president of the Ford Motor Company, said Thursday: "The building and testing of the new car is costing millions of dollars, he said, and the new car is in production within the next few weeks."

It was hoped for in the early stages of developing Ford's new car.

"In a recent test one of these cars ran between 110 and 120 miles in two hours in the first hour of the trip the car covered 55.1 miles, covering the remaining 53.9 miles during the second hour of the test, he said."

"This test was made over average road conditions, the route lying through country and partly through hill country. The car consumed less gas than any other of the previous models out through the country."

"We have tested this new car for its speed and pickup with many other types of automobiles and have found that it surpasses all of them with one exception in quick starting and acceleration."

"We have known from the beginning that this new Ford would be a handsome car. Experiments have been made with a wide variety of other schemes and body designs and all these have been decided upon."

"When this car is formally introduced within the next few weeks, we shall be able to say that it is the best and most moderate priced automobile we know how to build."

ELBA THEATRE UNDERGOING EXTENSIVE IMPROVEMENT.—The Elba Theatre, local moving picture house, is undergoing extensive improvement and repairs, and for the past several days Elba people have not had the pleasure of attending this show house.

The entire floor of the building was torn up, and excavations made, which give the floor an incline of several feet, thus doing away with the steps at the entrance. The front is also being remodeled, the ticket office being to one side. A gallery is being built, which will be used for colored people. Entrance to the gallery will be by a small stairway, entirely separate from the main entrance.

Many other improvements will be made in the building for the comfort of patrons. Work is being rushed on the building, and it is expected to have the show open again within the next few days.

The Peanut Shellers Say: "Your peanuts must be clean and properly harvested if top prices are expected"

The New "LILLISTON" POSSESSES EVERY REQUIREMENT

COME AND SEE THEM IN OPERATION

"Harvesting and preparing your peanut crop for the market cannot be too carefully guarded if highest prices are expected," is the statement of Boyd & Murphree, local shellers.

The Lilliston Picker is guaranteed to produce No. 1 grade peanuts, commanding \$10.00 to \$15.00 more per ton than the same quality not having been properly picked.

You are certainly interested in equipment that will produce the highest grade products—your neighbors are also interested in such equipment, and will allow preference when picking time arrives.

Don't be deceived, talk to your local sheller who pays the highest prices. Then come in and look over the New Improved Lilliston. It's new features are exceptionally desirable—its quality and performance is recognized by those having years of satisfactory experience.

The Dependable Ford Motor

Delays and expensive breakdowns are completely avoided with this dependable and inexpensive power unit.

The initial cost is surprisingly low, only \$175.00 Complete. It is an ideal power plant for many purposes around the farm, and promises to meet every requirement for peanut picking machinery.

Dependable day after day service—low cost operation and maintenance—is evidence of its superiority that insures satisfied customers.
